WHY GET A DOMAIN NAME?

Your domain name, i.e. your online address, is, in essence, your digital ‘identity card’ - the first thing people will see and recognize you by. With mobile Internet usage steadily growing and attention spans getting shorter and shorter, registering a domain name that is easy to discover and remember is becoming more and more crucial for building a successful online presence.

At Digale Hosting, you will find a wide array of domain extensions. We are partnering with multiple ICANN-accredited registrars, which allows us to choose where to get a specific TLD from. This is also the reason why you will find our domain registration prices among the lowest on the Internet. Plus, the ICANN accreditation speaks for itself - it means that you are dealing with a reputable partner.

As soon as you’ve registered a domain with Digale Hosting, you’ll gain access to our advanced Domain Manager interface, which allows you to control everything domain-related - from WHOIS info updates to DNS record modifications. Plus, you’ll be able to manage multiple domain names at the same time with ease.

WHY Digale Hosting:

- A Wide Variety of TLDs
- Simple Multi-Domain Management
- Easy DNS Controls
- Fast WHOIS Management
- Unlimited Parked Domains
- 24/7 Support
